

## **Volunteers**

There are many reasons why someone decides to make time to volunteer. The catalysts can be personal, professional, community or society driven. We believe that volunteering is an excellent opportunity to both help your community and grow as an individual. That's why, at Central Carleton Nursing Home, we strive to recruit new volunteers.

Our Volunteers contribute many hours each week to enrich the lives of our Residents. All you need is a willingness to help people, a little time to share and a desire to accept a challenge. Your gift of time and energy would be invaluable to our organization. Our volunteers are important members of the health care team who help fulfill the different needs of our residents.

We encourage family participation and would welcome those who express an interest in any of the above. Volunteers are our most valuable natural resource.
